**Polled Shorthorns**

**Second Annual Production Sale**  
**SATURDAY, SEPT. 21, 1974**

**WOODSIDE, CALIF.**

### WELCOMING MESSAGE

At our first production sale in 1973, we welcomed over 200 guests and reached the second highest sales average of any Shorthorn production sale held in North America during that year. Preparations have been underway for nearly one year to make our second production sale even more successful and more rewarding for old friends and new purchasers alike.

We have striven to combine aesthetics and efficiency in our ranch with quality and performance in our cattle. There are not many large ranches in the United States that are as close to a major metropolitan area. We are very much looking forward to welcoming you to this scenic area and to our second production sale.

On the sale day, you will be able to enjoy a spectacular view of the Pacific Ocean. The night before we invite you to an equally spectacular view of the San Francisco Bay Area at our get-together dinner and wine tasting at Ridge Vineyards - one of the highest California wineries overlooking the San Francisco Bay.

### SMIP/ALBERTA

In 1972 SMIP established a second ranch near Olds, Alberta, Canada - about 50 minutes drive from Calgary Airport - where approximately the same number of cattle is being raised. The same attention to quality and performance is emphasized there, and the reason for having a second location in Canada is to provide cattle breeders with calves born either in the fall (California) or in the spring (Canada). Visitors are welcome at any time to the Olds ranch and should contact the ranch manager at (403) 226-2350. Nine lots at this production sale come from SMIP's Canadian herd.

THE HIGHEST PURCHASER WILL RECEIVE A FREE PLANE TICKET TO CALGARY WHEN SMIP HOLDS ITS FIRST PRODUCTION SALE AT ITS OLDS, ALBERTA RANCH IN 1975.

## Welcome to SMIP Ranch

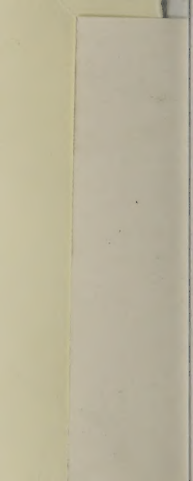

A NEW APPROACH TO POLLED SHORTHORNS OF SUPERIOR QUALITY. Since 1968, a unique program has been underway to produce Polled Shorthorn cattle of large size, superior quality, consistent breeding performance and maximum profitability. SMIP Ranches in Woodside, Calif. and Olds, Alberta, have been building a comprehensive cattle program constantly testing bulls with more than 250 females. The SMIP breeding program includes some of the most productive Polled Shorthorn females on the North American continent. Teamed with growth-rated sires such as Kinnaber Mr. Thieman x (2,265 pounds at 3 yrs), TPS Coronet Keystone 19th x (2,100 pounds), TPS Coronet Cavalier 3rd x (2,300 pounds), BB Royal Oak 105th x (1,890 pounds at 2 yrs), and BB Commander's Wonder (2,149 pounds), these females are producing Polled Shorthorns that meet SMIP Ranch performance standards.

SMIP is owned by Dr. Carl Djerassi, professor of chemistry at Stanford University and chairman of the Zoecon Corporation. His interest in purebred cattle started when Dr. Djerassi was president of Syntex Corporation's research division; its veterinary research program included extensive work on estrus synchronization in cattle. Zoecon Corporation, a company which Dr. Djerassi helped to found, is active in developing new non-toxic insect control agents. Zoecon's Thuron division of Dallas, Texas, markets products for tick and grub control in cattle as well as a line of cattle ear tags.

SMIP Ranch's unique 12-sided barn - site of production sale.

To allow us to plan adequately for bus transportation and the pre-auction dinner and wine tasting, please complete the attached information and mail it as soon as possible.

# KINNABER MR. THIEMAN x

## THE PERFORMANCE RECORD

Truly a record breaker since birth, Kinnaber Mr. Thieman x puts it all together - size, muscling and performance. He's a great sire named after a great breeder of Polled Shorthorns.

## HIS OFFICIAL WEIGHTS

Actual 186-day weight	635 pound
Actual 365-day weight	1,100 pounds
Actual weight at two years	1,810 pounds
Actual weight at three years	2,265 pounds

## FIRST OPPORTUNITY TO PURCHASE KINNABER MR. THIEMAN x SEMEN

A LIMITED NUMBER of canes of semen of Kinnaber Mr. Thieman x will be offered for sale for the first time. Bidding will start at \$40 per vial and will be sold in units of six vials (equaling one cane). Straws are also available and can be substituted for vials.

The semen is fully guaranteed and during the 1973 - 1974 American Shorthorn Association Sire Evaluation Program in Wyoming artificial insemination with this semen produced more offspring than that of any other competing bull. All semen sales will be f.o.b. Woodside, California, or Denver, Colorado.

Two typical 11-day old, tall and modern 1974 bull calves (SMIP MR. THIEMAN 209 & 212) out of KINNABER MR. THIEMAN x.

Kinnaber Mr. Thieman x is enrolled in the American Shorthorn Association 1973-1974 Sire Evaluation Program. All calves from this program will be shipped in October 1974 from a commercial cattle ranch in Wyoming to the Southwest Sire Evaluation Center in Oklahoma. In 1973 at the Manitoba Beef Cattle Indexing Center, a son of Kinnaber Mr. Thieman x gained 4.19 pounds a day, ranking fourth out of 220 bulls of all breeds including exotics. At the same center in 1974, one of his sons was the top selling bull. At the 1974 Kansas City Polled Shorthorn Congress one of his sons was the second highest selling bull (\$4,300). In 1973 daughters of Kinnaber Mr. Thieman x have already been grand champions of the Denver National Western Junior Livestock Show (and top-selling female) and of the San Francisco Junior Livestock Show.

**BIDDING** - Each animal will be sold to the highest bidder without reserve and ownership will change when the animal is sold. The only exceptions are Lots 1, 2 and 3 for which minimum reserves are listed in the Catalog.

**GUARANTEE** - All cattle in this sale will be sold under the standard guarantee endorsed by the American Shorthorn Assn. (copies available for inspection at sale). Certificates of registry and transfers will be furnished with each lot sold. All cattle become the property and risk of the buyer as soon as bid off.

**HEALTH** - The seller has had all animals tested for Tuberculosis and Brucellosis within thirty (30) days of sale date. These cattle are free from any infectious or contagious disease. Health papers will be provided in order to allow shipment anywhere in the Continental United States. All females will be pregnancy tested prior to sale. All bulls will be semen tested.

**BUYER'S RESPONSIBILITY** - Prospective buyers or bidders at the sale should listen carefully to all announcements made from the auction block by the Auctioneer, or Seller, on each animal that is sold since announcements from the auction block take precedence over the printed matter in this Catalog. This applies particularly to additional breeding information which may become available only at the time of

the sale and after the Catalog has been printed. Buyers should also acquaint themselves with the Breeding Status Glossary defined below.

## BREEDING STATUS GLOSSARY -

**SAFE IN CALF:** Female has been palpated and diagnosed pregnant as per signed Veterinary Certificate.

**BRED:** Female has been served by a bull or artificially inseminated to a bull but does not mean this female is safe in calf to that service.

**PASTURE BRED OR PASTURE EXPOSED:** Female has been running in the pasture with the bull and has been exposed to the bull for the period of time as stated but does not necessarily mean that this female is safe in calf.

**OPEN:** This is (a) virgin heifer that has never been exposed to a bull by any means; (b) in the case of a cow, she has not been exposed to a bull by any means since the birth of her last calf; (c) a female of any age palpated by a veterinarian and found not to have conceived.
